

2014 Call for FCT Investigators

Summary of final results

The FCT Investigator Programme aims to recruit 1 000 outstanding researchers by 2016, to carry out innovative research at research centres across Portugal.

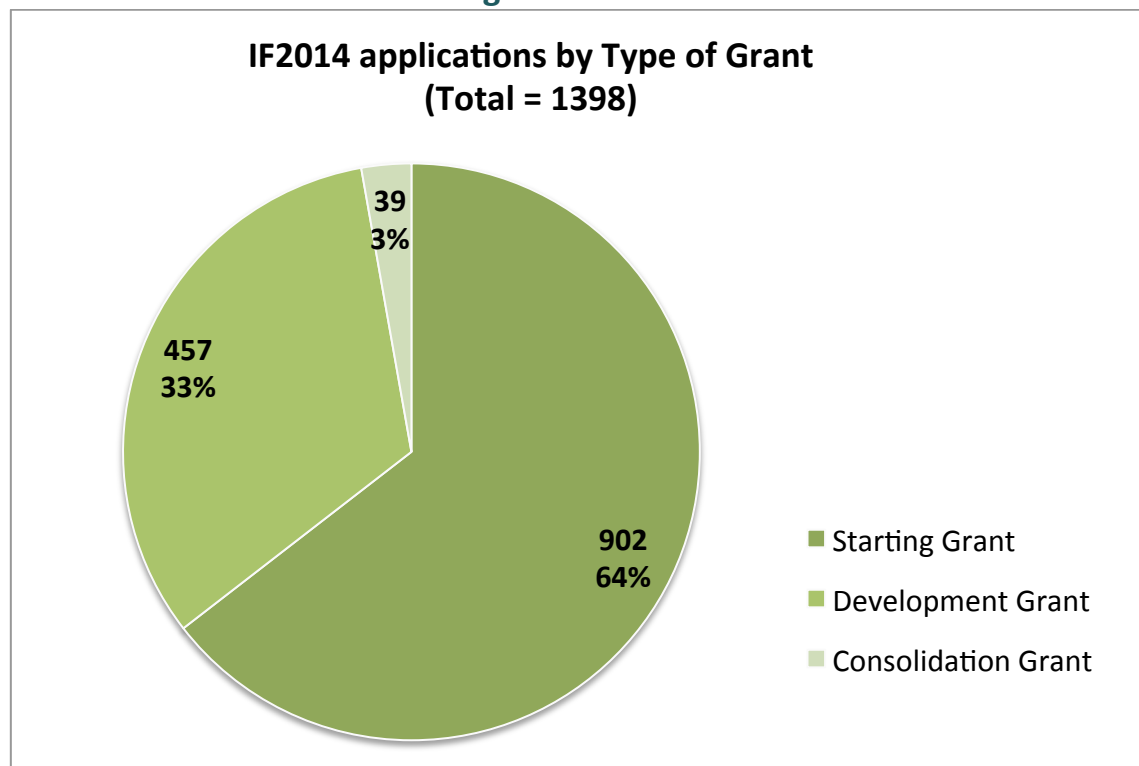

The programme 5-year contracts for the most talented and promising researchers, across all scientific areas and nationalities.

Established in 2012, the programme supports both outstanding post-doctoral researchers who wish to make the transition to independent researcher, and already independent researchers, with a proven track record, who wish to consolidate their research skills and establish leadership in their research fields.

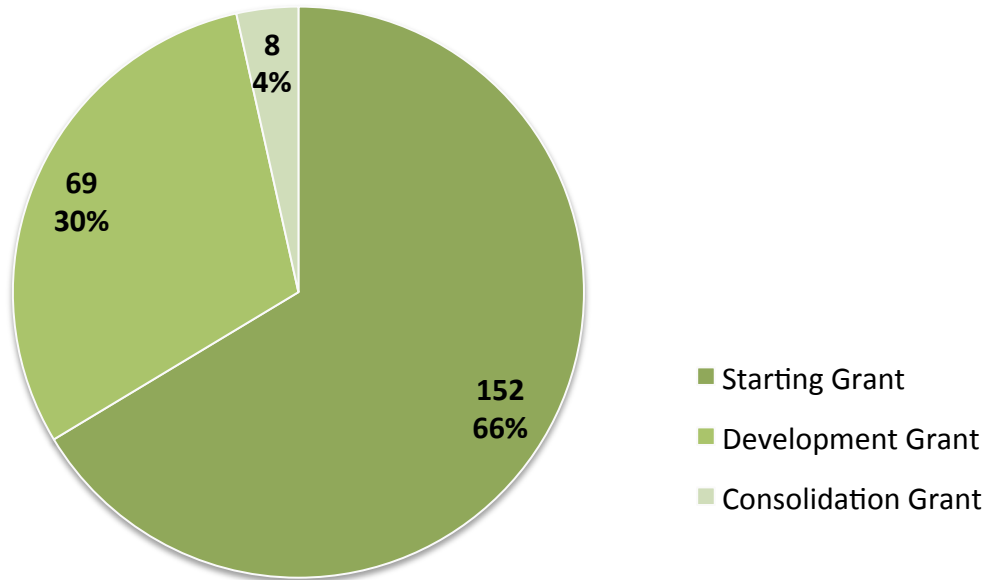

To date, **597 FCT Investigators have been selected**, in the 2012, 2013 and 2014 calls. These include 92 (15%) who have moved or will move to Portugal and 505 (85%) staying in Portugal.

In the **2014 call, 229 new researchers** were selected for the FCT Investigator Programme.

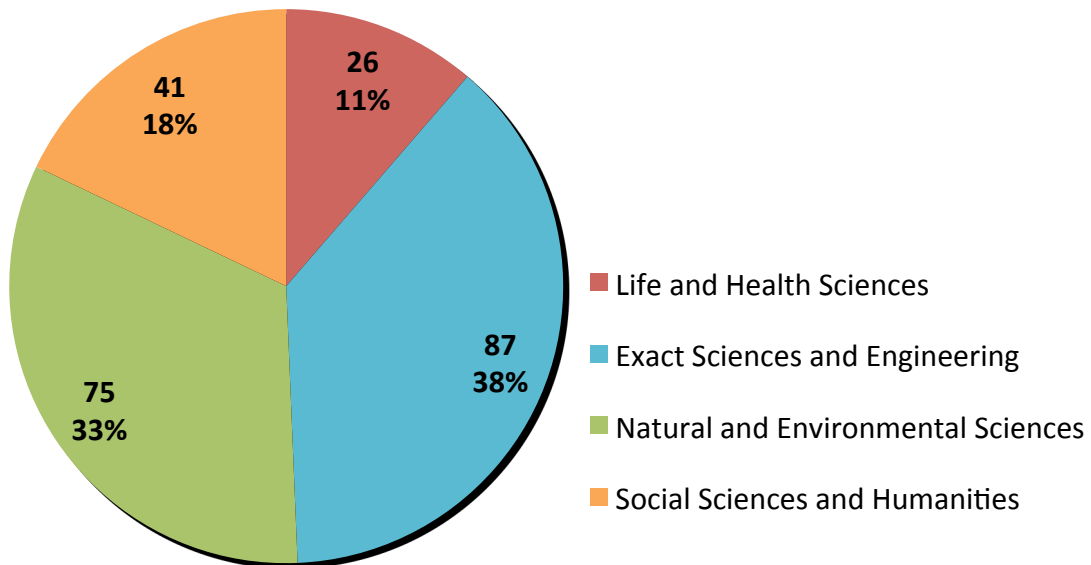

Results of the 2014 FCT Investigator call

**IF2014 grants awarded by Type of Grant
(Total = 229)**

**IF2014 grants awarded per Scientific Domain
(Total=229)**

Overall results of the FCT Investigator Programme (2012 to 2014)
